Office of the Director,
Sandalwood Oil Factory, Bangalore,

Dated 19th December 1944.

FROM M.L.NARASIMIENGAR, ESQ., B.A., B.E., M.I.E.(Ind.),
Director of Sandalwood Oil Factories,
BANGALORE

To CHARLES E. NORONHA, ESQ., M.A.,
Secretary to Government,
Development Department,
BANGALORE.

SIR,

4-102/42

Sub: Purchase of spare parts for the manufacture of scientific instruments in the Government Electric Factory:

I have the honour to state that the General Manager, Government Electric Factory, reports that certain spare parts of scientific instruments as per list 'A' enclosed herewith are immediately to be ordered from Messrs. W.F.Stanley & Co., Ltd., London and Messrs. James Booth & Co., Ltd., Birmingham.

In this connection, it is stated that two Foreign Indents in Nos. 3339 and 3339/1 were placed through the Secretary, Stores Purchase Committee and the Trade Commissioner for Mysore, London on these two firms in September/October 1942 under sanction of Government in Government Order No.D.1639-41/I&C. 71-42-6 dated 31st August 1942 at an approximate cost of Rs.7,000/- and as per list 'B' herewith enclosed. The materials ordered were however received so late as October 1944, i.e., exactly two years after the order was placed. During these two years, the factory had no other alternative but to purchase these parts from local firms paying abnormal prices. The materials obtained from Messrs. Stanley are stated to meet the requirements of the factory for the next 8-9 months considering the number of sales orders that are being received by the factory at present. Thereafter, unless arrangements are made for the supply of these parts from abroad, in time, the factory will have to pay very heavy rates for obtaining them from local firms. Further it is probable we may not be able to procure many of the items locally.

Under these circumstances, the General Manager, Government Electric Factory considers it very essential to place the indent immediately through the Secretary, Stores Purchase Committee, and I concur with him in his proposals having regard to the present international situation.

The materials now proposed to be ordered are estimated to cover the requirements of Instruments Section for about one year and the value is estimated at Rs.8,000/- nett. The indent will be placed through the Secretary, Stores Purchase Committee, as usual and the necessary license for importing the materials obtained from the Chief Controller of Imports, Government of India.

I request you kindly to obtain very early sanction of Government for the purchase of these parts at an estimated cost of Rs.8,000/- nett which will be met out of the Revenue Funds of the factory.

I have the honour to be,
Sir,
Your most obedient servant,

M L Narasimiengar
DIRECTOR.

GOVERNMENT ELECTRIC FACTORY

CONTD [redacted] SHEET

DATE 11th April 1942.

LIST OF MATERIALS REQUIRED FOR INSTRUMENTS SECTION FOR THE MANUFACTURE OF SCIENTIFIC INSTRUMENTS.

Item No.	Name of the materials.	Quantity.
	MATERIALS REQUIRED FOR 60 CUMPY LEVELS.	
A) 1.	Object glass 14" F.L. 1.65 dia. ..	60 pieces.
